### **DETAILED ACTION**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Coury #34309 on 5/6/2010.

The application has been amended as follows:

In Claim 7, "Claim 6" has been changed to –Claim 1--.

### ***Allowable Subject Matter***

2. Claims 1-4, 7, and 10 are allowed.

3. The following is an examiner's statement of reasons for allowance:

In accordance with the Board Decision of 2/26/2010, the references of record do not render the claims anticipated, obvious or indefinite, and having failed to present evidence necessary to establish the prima facie case of obviousness, the claims are not proved non-patentable.

The use of a compensation cylinder is not new, nor is the use of the V-ring arrangement for fine blanking of work-pieces. It was determined by the Board that the use of hydraulically connected v-ring cylinder and compensation cylinder was not obvious in view of the closest art of record. While compensation cylinders generally are known and the use of v-ring trim/blank apparatuses is known generally the specific

Art Unit: 3724

combination of elements required by the claim is not seen to be obvious in light of these determinations, and close scrutiny of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
